A HEALTHIER COMMUNITY

Our Mission

TO ASSESS, PROMOTE
AND STRENGTHEN
THE HEALTH OF
BUFFALO COUNTY.

Building A Healthier Community

Partnerships Are Cornerstone of Buffalo County Community Partners

Suzanne Brodine

Partnership building is the cornerstone of the Buffalo County Community Partners organization. Our mission is to assess, promote and strengthen the health of Buffalo County, but we can't do that alone. We rely on the passionate individuals and groups who reside in Buffalo County to help us create optimum communities. Over our 16-year history, we've brought community, government, youth, education, healthcare, and faith community agencies, as well as businesses, together to solve local issues.

We're heartened by documented reductions in teen tobacco use, second hand smoke, binge drinking, and increasing use of seat belts. Perhaps our most treasured community success is the development of Reach Your Destination Easily, commonly known as RYDE, that was developed by a group of concerned citizens roughly 10 years ago. Today, this system coordinates community transportation needs for more than 90,000 residents.

Thanks to those documented community outcomes, \$400,000 in grant-funded programs is available to our communities each year through Buffalo County Community Partners. Those documented outcomes also help Buffalo County Community Partners leverage \$1.5 million in grant-funded projects annually in Buffalo County, effectively reaching a majority of all ages of Buffalo County citizens.

Every \$1 donated to Buffalo County Community Partners is matched by \$6 in grant funding. Our local donors are supporting significant change in Buffalo County! Funds are designated to the following budgeted categories.

I invite you to join our call to action to build a healthier Buffalo County. You can get on board by adopting a policy or program in your faith community, school or workplace that emphasizes healthy behaviors. If you're so moved, join one of the many coalitions in your community working toward the Healthy Buffalo County 2020 Vision. Or, consider a donation to support wellness in Buffalo County. Whatever action you take, I thank you for working with us toward building a healthier community in Buffalo County.

Dear Buffalo County Residents,

The Buffalo County Community Partners Board of Directors and Staff are pleased to announce Buffalo County 2020 Vision. Five areas have been selected by community residents to be ELEVATED as priority health issues. Community Partners will work with community stakeholders to ENGAGE residents and organizations in prioritizing their time and resources on issues of highest importance. By EMPOWERING residents in Buffalo County to create positive change together, we will work toward attaining the 2020 Vision for our community. Buffalo County Community Partners provides the 2012 Annual

Report to the Community to EVALUATE our progress as a community toward the 2020 Vision. Buffalo County residents celebrate our past success in attaining over 50% of past goals. Through the work of 1000 volunteers and 300 organizations and 100 youth your community is taking a stand to promote healthy lifestyles in Buffalo County. To learn more about our communities successful partnerships and programs read through our 2012 Annual Report. Buffalo County 2020 Vision was developed by 300 residents who participated in mini-town hall meetings in 2009. Residents defined their vision for a healthier community and prioritized a list of issues

to be address through 2020. Buffalo County Community Partners commissioned three surveys to research risky behaviors and health factors. The data contained in the 2012 Annual Report was secured through 2010 Buffalo County Youth Behavioral Risk Factor Survey, 2010 Adult and Minority Behavioral Risk Factor Survey and 2009 Focus Group Report. All documents are available on Buffalo County Community Partners Web Site, www.bcchp.org. By working on these issues together, Buffalo County is leading the nation in 'best practices' to eliminate health disparities, building healthy families, sustaining communities, emphasizing high impact prevention and injury free living. Join Buffalo County Community Partners in Building a Healthier Community by 2020.

Sincerely,

Denise Zwiener,
Executive Director

Building A BUFFALO COUNTY 2020 VISION

Create awareness, advocacy and excitement about activity and the importance of designing our community for active and healthy lifestyles. Create a community where living through active and healthy choices is a priority.

Healthy Eating & Active Living

"Buffalo County Community Partners (BCCP) provides the road map for building a healthier community, and the checkpoints along the way to know we are reaching our destination. Good Samaritan Hospital is grateful for this partnership and proud to support BCCP, because working together we are a better community."

- Mike Schnieders, president and CEO,
Good Samaritan Hospital

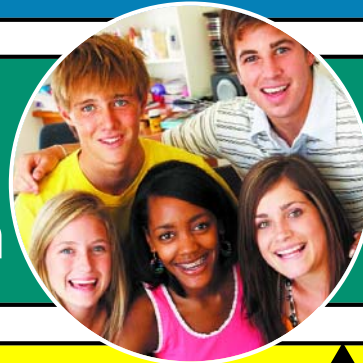

Increase the number of adults with health insurance

Decrease the number of minority residents that report barriers to health care

Increase the number of adults reporting healthy days

Improve the health and quality of life in Buffalo County through prevention; leveraging collaboration, planning, and programming. To aid communities in the coordination, and integration of resources, and use of evidence-based practices to improve health and well being.

High Impact Prevention

Decrease underage drinking and binge drinking

Services

"Buffalo County Community Partners is a shining example demonstrating how great things can be achieved when people work together with a shared vision. The quality of life in our area has been significantly, and forever, improved through the outstanding work of the Buffalo County Community Partners."

- Stan Clouse, Mayor
City of Kearney

Increase the number of quality rentals for families at 30-50% of Median Family Income

Increase home ownership for families at 30-50% of Median Family Income

Healthy H

Improve the health and quality of life of Buffalo County residents by implementing evidenced based programs and policies to eliminate preventable injury.

Increase seat belt use among adults and youth

Injury-Free Living

Healthier Community

5 STRATEGIC DIRECTIONS FOR 2020

Decrease the BMI reported by adults and youth

Increase physical activity in adults and youth

Increase consumption of fruits and vegetables in adults and youth

"Our partnership with Community Partners has allowed us to engage community members, employ local knowledge in the understanding of health problems within the region and design interventions to promote health and well being among our residents. Building community coalitions is critical and Community Partners has been a cornerstone for multiple health promotion entities."

- **Kate Heelan, Associate Professor/Director**
Human Performance Laboratory
University of Nebraska at Kearney

Eliminate

100% access to primary health care services for all with zero racial and ethnic disparity. Differences between people, such as culture, class, educational attainment, employment status and ability to pay will no longer be associated with differential health outcomes.

Health Disparities

Decrease tobacco and marijuana use

Decrease the number of adults reporting Alzheimer's Disease and dementia

Increase the number of teens reporting they are not sexually active

"Buffalo County Community Partners has been very instrumental to the community of Ravenna. They helped fund Bluejay Headquarters Youth Center and held successful Town Hall meetings here. In addition, they organized various youth activities. Two of the activities our students attended were the Youth Summit and Buffalo County Day at the Capitol. Also, we have students who serve on the Buffalo County Youth Advisory Board, which meets once a month. All in all, you can see that BCCP reaches out to the small communities and helps us in vital ways."

- **Janelle Grabowski**
Ravenna teacher and sponsor of STAR and YAB

Increase financial responsibility programs for adults and youth

Engage community leadership in developing model practices to empower residents in building sustainable and healthy communities. Eliminate barriers and develop unique programs impacting affordable housing and quality rentals for all residents.

Homes & Sustainable Communities

Decrease substantial cases of child abuse

Decrease reported cases of domestic violence

Decrease youth suicide and thoughts of suicide

"There is no need or cost to treat a disease that has been prevented. Prevention is just one of many great aspects of the Buffalo County Community Partners. The local board and staff, through their mission, Do Make A Difference in our great community."

Our Philosophy

Buffalo County Youth Advisory Board (YAB) is a program and a philosophy that recognizes youth as valuable resources in their community and empowers them as equal community partners to bring about positive community change. Buffalo County YAB, governed by a board of youth and adults and supported by local funders, provides grants for youth-initiated and youth-led community projects. Youth tackle a range of social problems that concern them from our economy and environment to safety, tobacco, alcohol, and illegal drugs.

Our Mission

Buffalo County Youth Advisory Board (YAB) is a youth-based, youth-led, youth-driven board that provides grant funds to youth organizations for the betterment of Buffalo County communities.
